

Low-Cost, Local, Private Seismicity Networks Providing Real-Time Knowledge Around Your Assets

- Precise event locations
- Improved depth accuracy
- Low-cost private networks
- In-fill public networks
- Autonomous 6C seismic stations
- Rapid deployment
- Compact, light and transportable
- Minimal environmental impact
- Sealed and ruggedized for years of service
- Permanent or retrievable deployment
- 4G and Wi-Fi enabled
- Economical monthly data plans

**SeismicityAlert app provides
actionable and reliable
information at your fingertips**

seismicityalert.com

- Interactive event map
- Sort by date or magnitude
- 3D event locations
- Real-time sensor health
